

ANTARCTIC RECORD No. 61

CONTENTS

Scientific Papers

- Atmospheric water vapor measurements at Mizuho Camp, East Antarctica in
1976–1977.....*Fumihiko Nishio*..... 1
- Observation of the atmospheric surface layer on bare ice in the circumference
of the Yamato Mountains, Antarctica (in Japanese)
.....*Shun'ichi Kobayashi*.....11
- The bedrock topography deduced from multiple radar echoes observed in the
Mizuho Plateau, East Antarctica*Shinji Mae*.....23
- Modes of gravity anomaly distributions in relation to the crustal structure of
the Antarctic Continent*Katsutada Kaminuma and Megumi Mizoue*.....32
- Harpacticus furcatus* LANG from the Antarctic Peninsula, with reference to the
copepodid stages (Copepoda: Harpacticoida)
.....*Tatsunori Itô and Mitsuo Fukuchi*.....40
- Distribution of chlorophyll-*a* contents in the surface water along the course
of the FUJI to and from Antarctica in 1972–1973*Kazunori Kuroda*.....65

Reports

- Activity of the summer party of the 18th Japanese Antarctic Research
Expedition in 1976–1977 (in Japanese)*Susumu Kokubun*.....75
- Documents retrieval system on National Institute of Polar Research (in
Japanese)*Katsutada Kaminuma and Kazuharu Miyamoto*.....93
